

The logo features a large, stylized white letter 'G' on the left, followed by the word 'LOGGA' in a bold, white, sans-serif font. Two red L-shaped corner brackets are positioned around the logo: one in the top-left corner and one in the bottom-right corner.

G LOGGA

INNOVATIVE RAISED FLOOR SYSTEM MADE IN UKRAINE

FIRST UKRAINIAN
MANUFACTURER OF
RAISED FLOOR WITH
OWN PRODUCTION
UNITS IN LVIV.

In 2 years LOGA managed
to install more than 100 000
m² of raised floor panels.

RAISED FLOOR BY LOGA IS THE BEST SOLUTION FOR
YOUR BUSINESS

OUR ADVANTAGES

- Wide range of space regulation for communications (up to 2 meters)
- Possibility to choose the type of coating
- Reducing the load on the construction of the building in comparison with standard underlayment

- Placement of all communications in the free space under the floor
- Modularity and easy access to engineering systems under the floor

- Durability, antistatic and the most smooth surface
- High level of heat and noise insulation
- Simple permutation of raised floor modules

WHY US ?

ADVANTAGES OF OUR OWN PRODUCTION UNIT

All products are certified according to European standards

European quality at Ukrainian manufacturing price

Prompt execution of works

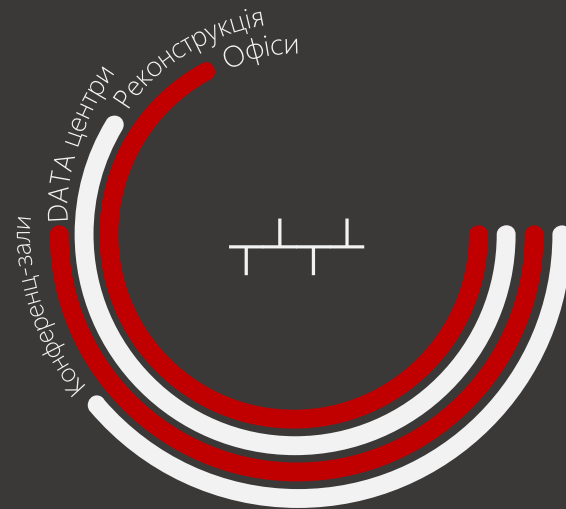

Exclusive offers for our customers

Realization of projects of any complexity

Areas of application

- Office centers
- DATA centers
- Research centers
- Electronic data processing rooms
- Telecom cabins
- Communication lines rooms
- Explosive premises
- Medical premises
- Production facilities
- Lobby receptions
- Airports
- Areas in front of elevators
- Reconstruction of old premises
- Stairwells
- Audiences
- Waiting rooms
- Conference halls

VISUALISATION OF RAISED FLOOR SYSTEM

CHIP BOARD

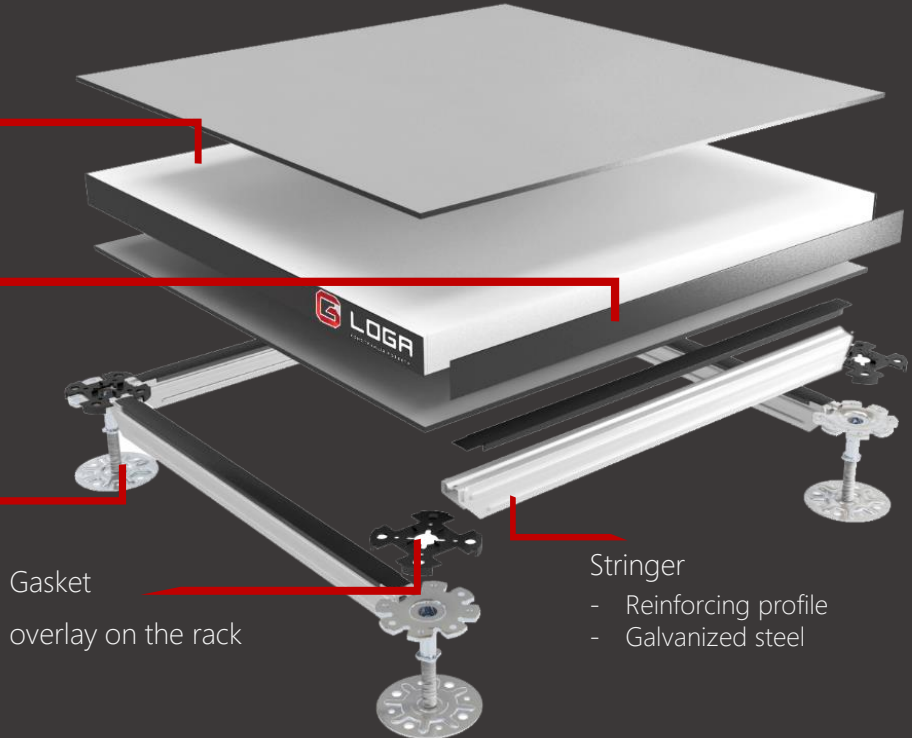

It is produced with respect of exact sizes in order to ensure high functionality

Edging on the perimeter of PVC tape

Ensures tightness and prevents moisture entering engineering systems

RAISED FLOOR RACKS

Made of durable stainless steel, there is possibility to change the height of the floor, the design is reinforced with stringers and C-profiles
